LAUREN PUSATERI

THIS IS MY STUDIO

I've spent years building a dream workspace and a talented dream team to share it with! Together we are five kick-ass, independent creatives that offer the best talent out there for commercial photos, production, prop styling, and photo retouching. Meet our team and check out the studio space!

COME ON IN!

With a total of 2,000+ square feet, this studio has everything my heart could desire in a creative space. In the main room of the studio there is a 10-person conference table, a private restroom with plenty of changing room for models, a kitchenette, and an ultra cozy sofa/ bar setup.

AREAS

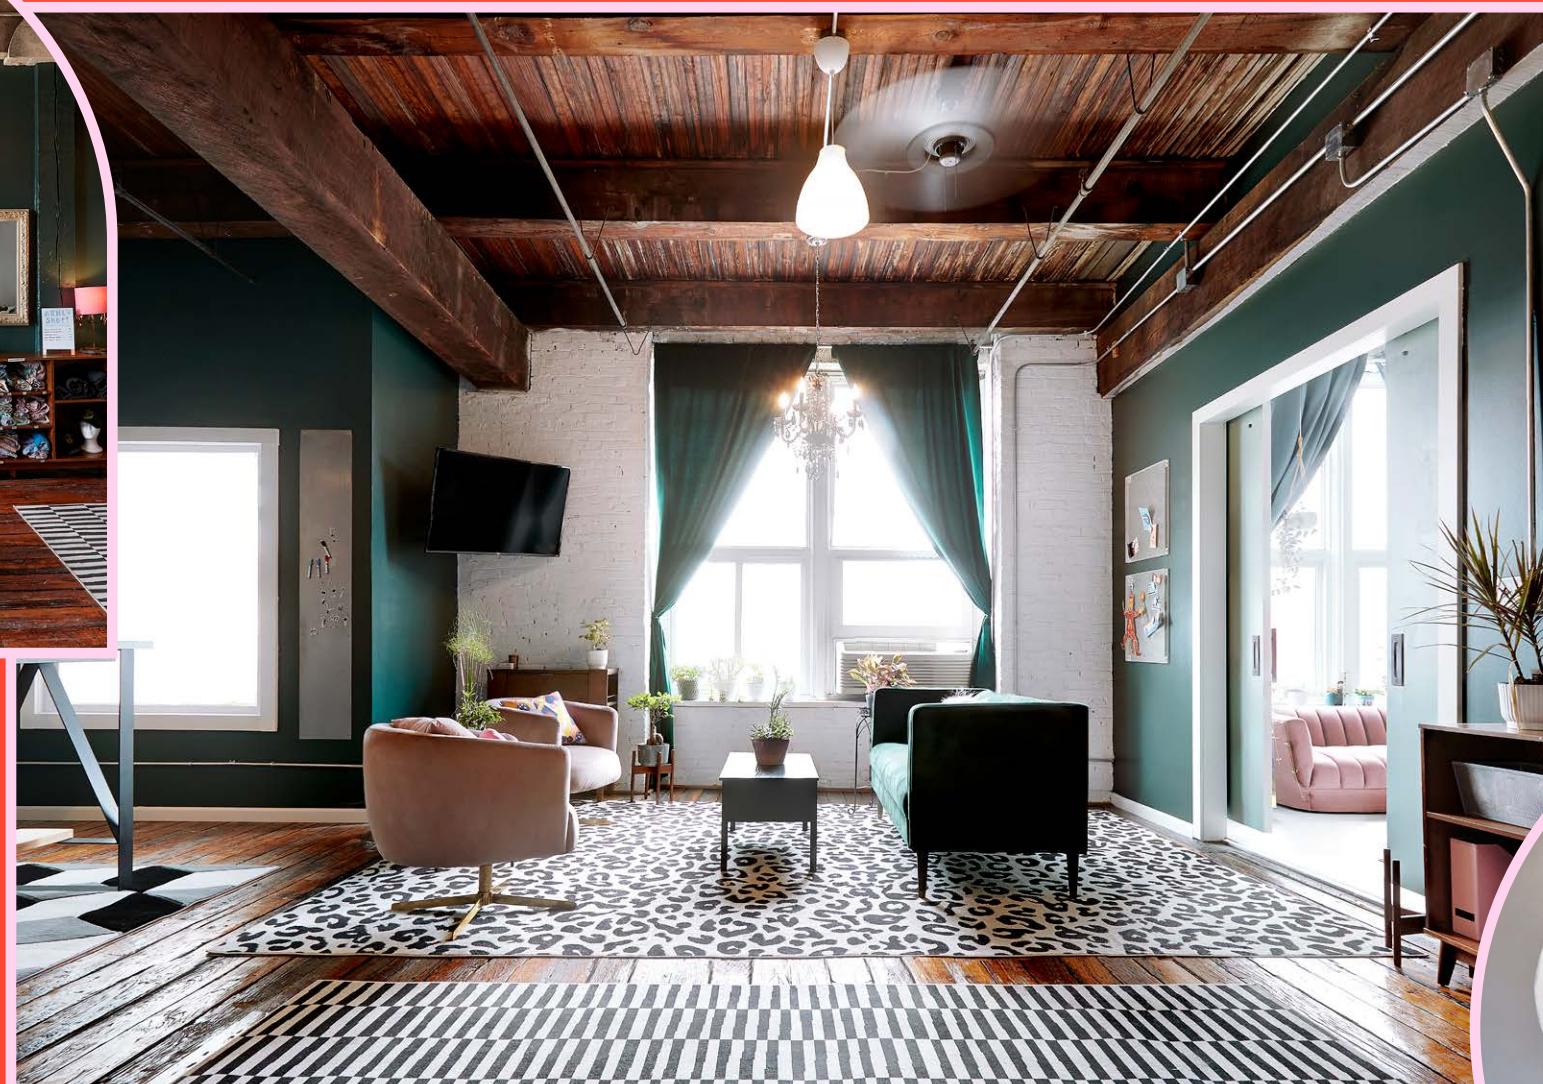

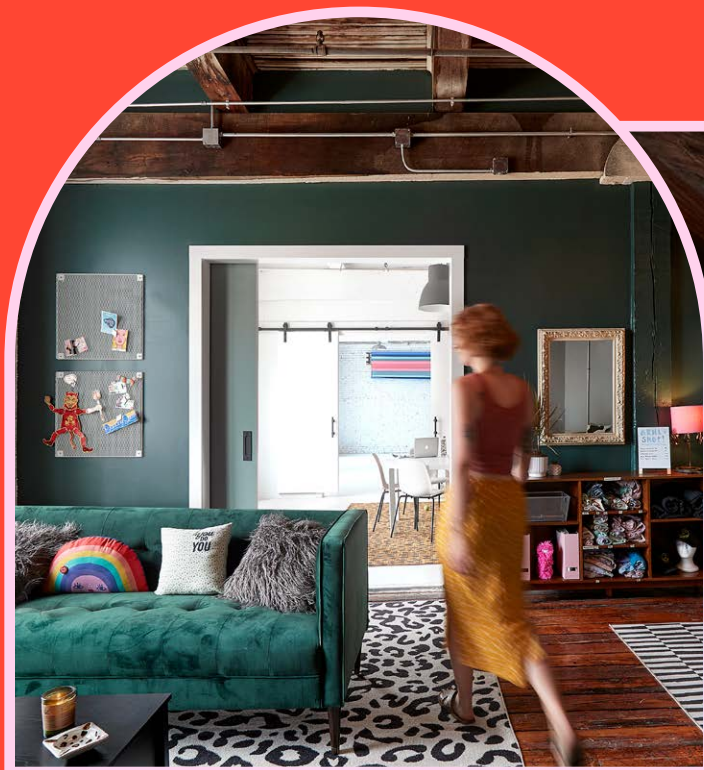

THE WEST WING

The West Wing is a well-equipped 900 square foot blank canvas for pure photo magic! With every seamless color under the sun, lots of space to spread out, and top-of-the-line lighting gear, this is where my team creates eye-catching visuals for big picture ideas.

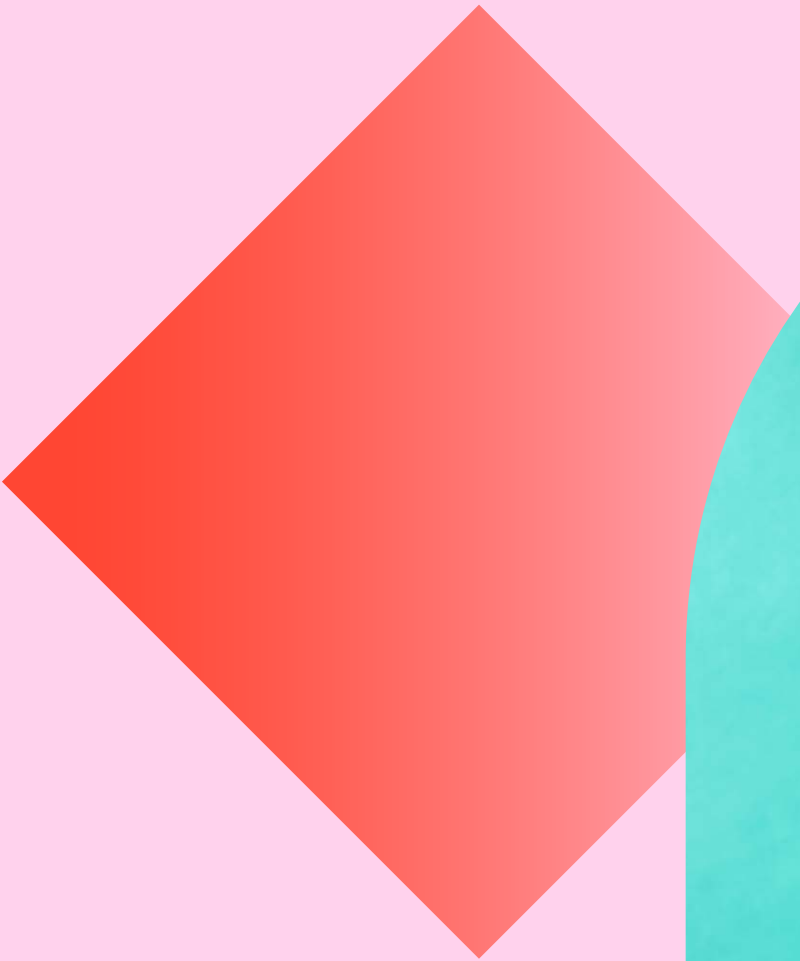

The East Wing serves as an office for a top-notch photo retoucher, but it's also where the team gets cozy and hashes out ideas. Outfitted with the comfiest, velvety-est furniture, a big tv for meetings, and a blobby whiteboard for brainstorming, this is the strategy center of the whole operation.

5 CREATIVES

1 STUDIO

LAUREN PUSATERI

I am a photographer and creative director who turns concepts into campaigns. With light and color, I create imagery that attracts eyeballs and establishes identities for brands that want to stand out in a sea of marketing noise. I'm known for my mastery of light and my ability to make humans and animals alike feel comfortable in front of the camera.

NATALIE BLUHM

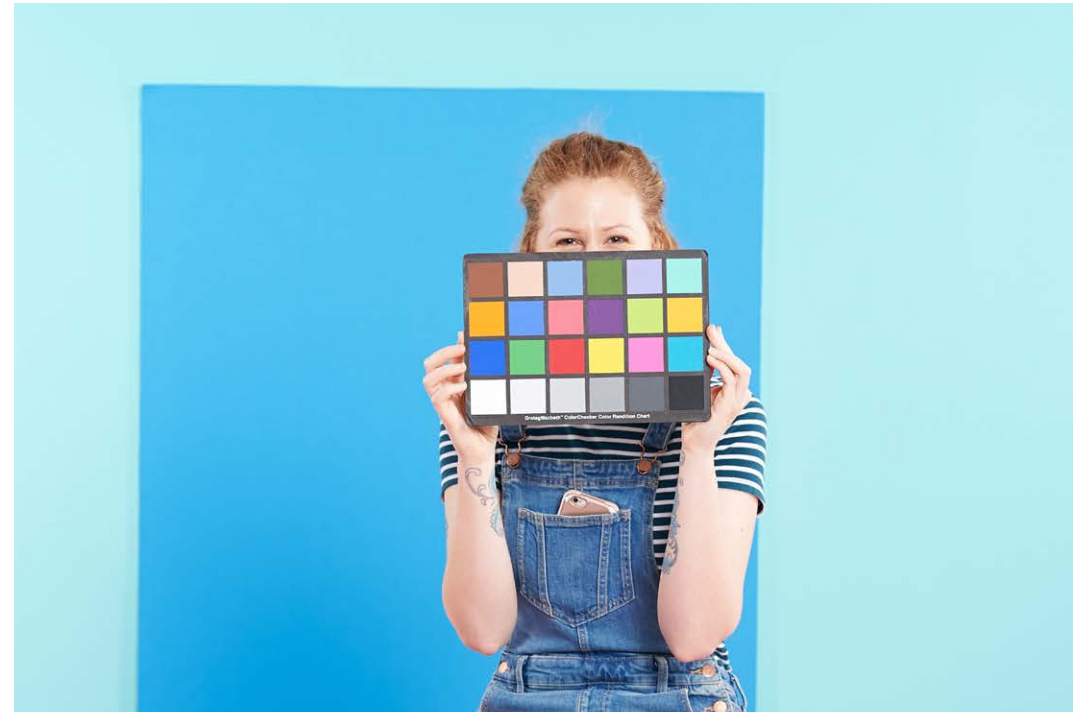

Natalie is a digital perfectionist and Photoshop nerd! She received her BFA in Illustration from the Rhode Island School of Design and has utilized those skills for over a decade as a Photo Retoucher; elevating the image through: RAW processing, clean up, color correction, detailed COBs, elaborate composites, creative color treatments, and those fun moving GIFs.

GRACE PRITCHETT

As a motivated and organized professional with an unconditional love for spreadsheets and schedules, Grace handles cost estimates, timelines, and makes a mean pre-pro book to keep your creative project running like a well-oiled machine. If your production needs covered are covered, she's also a seasoned copywriter that helps tell stories in a fun and captivating voice.

HALEY CHAFFIN

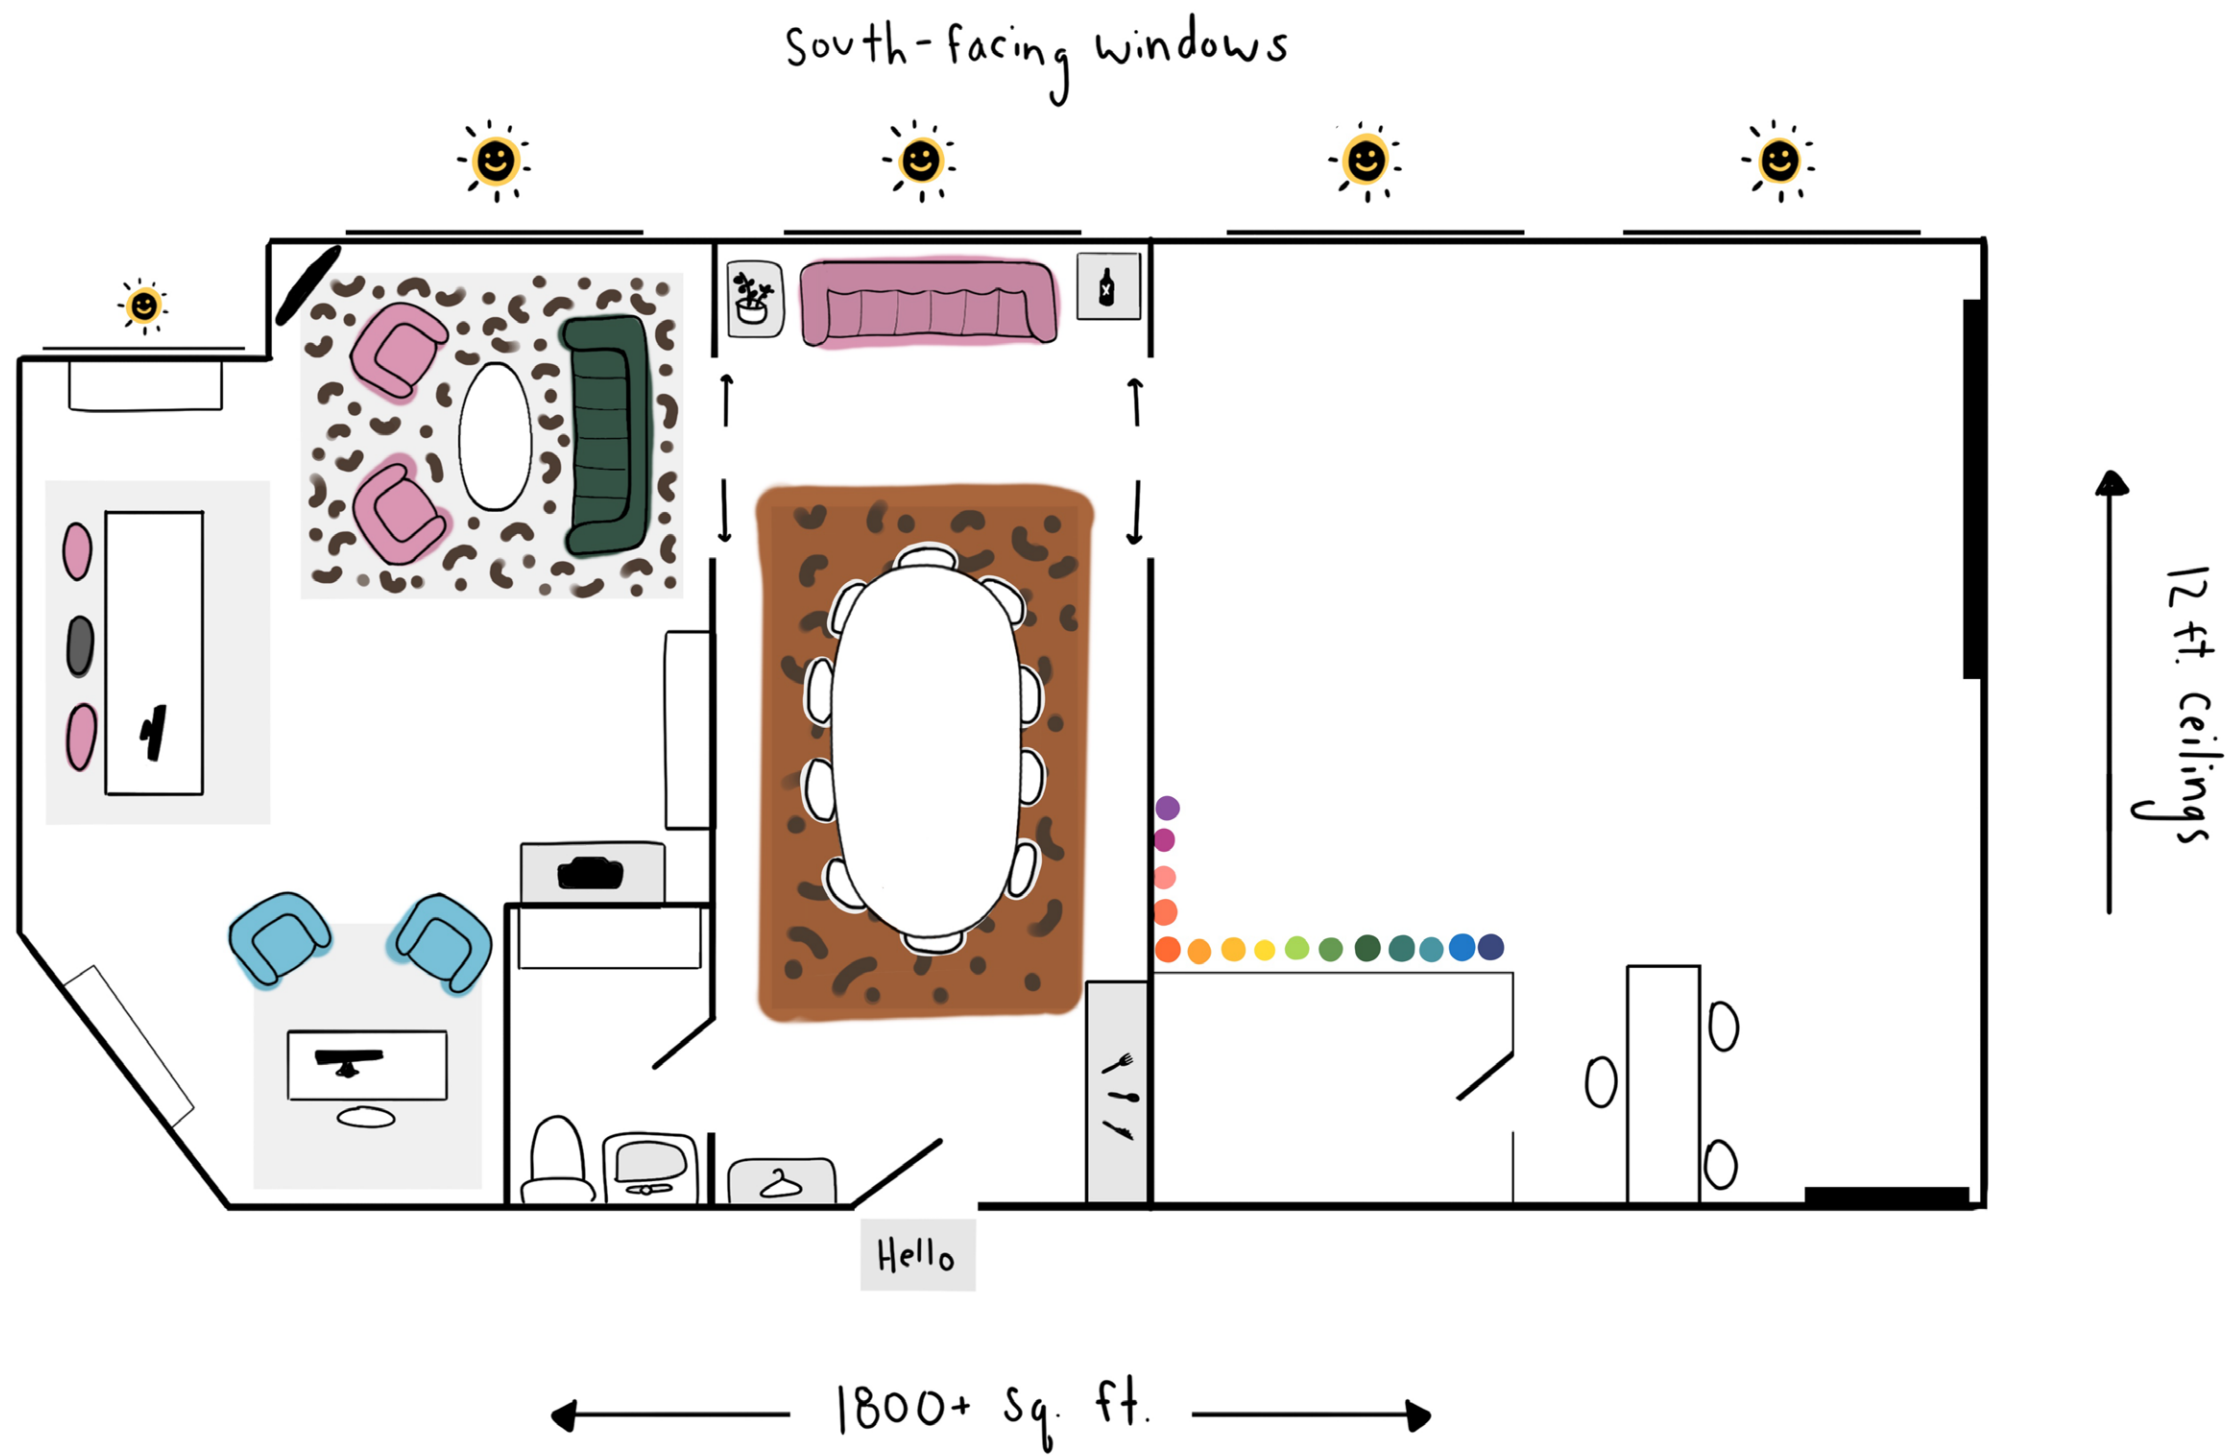

Haley is an animator of all things! From puppets, to paper, or motion graphics, she's got you. Making art that moves is just the tip of her creative iceberg! Haley works on large and small scale painting, constructing and sewing projects. She's also a photo styling pro that specializes in fabricating one-of-a-kind props and making killer compositions.

SHELBY PAGE

Shelby digs deep to make sure copy, creative, and client objectives are all melding together. She's comfortable designing branding and marketing projects as well as creating packaging and art directing a photoshoot. Shelby has over 6 years of design experience to bring to the table to help tackle everything from big picture needs to small design details.
